

Gateway UPGRADE NORTH

Date: 24 March 2016
Ref no: CN0021

Site office establishment – Queens Road, Nudgee

To facilitate widening of the Gateway Motorway between Nudgee and Nundah Creek, a site office is being established at Queens Road, Nudgee (refer to the map overleaf).

Works to establish the site office will start from early April 2016 and take approximately one month to complete.

Works include:

- installing temporary fencing around the site
- constructing a temporary vehicle access gate onto Queens Road, Nudgee
- excavating, shaping and levelling the ground using heavy machinery
- installing temporary offices and other facilities within the site
- constructing a temporary car park within the site.

What to expect during works:

- reduced speed limits and traffic control in place on Queens Road, Nudgee
- an increase in noise during some activities
- the use of flashing lights and reversing alarms on machinery and vehicles for the safety of workers
- the use of construction equipment and machinery, including excavators and cranes
- the transfer of machinery and equipment to and from site using trucks.

Working hours:

Site office establishment works will take place during standard daytime construction hours:

- **Monday to Friday** from 7.00am to 6.00pm
- **Saturdays** from 8.00am to 1.00pm.

Please note, the timing of all activities is subject to weather and construction conditions.

Ongoing site office operations:

Once established, these facilities will be used as offices and lunch rooms for workers on the project.

The location of the site office has been selected due to its proximity to the nearby worksite at the Gateway Motorway.

The site office will be used frequently during day and night works on the motorway until 2018.

Light vehicles will access the site office via Queens Road, Nudgee and parking will be provided on-site. At times, machinery or materials may also be temporarily stored within the area.

Every effort will be made to minimise construction impacts on the local community. We thank you for your patience and understanding during these important works.
